

# PEC Pinnacle

Long term solutions  
for future generations.

Learn more about  
Pinnacle fuel dispensers

## Designed for users.

Created from the most efficient hardware, bonded with a brand new user centric interface, the Pinnacle L & H Series are meticulously designed for your users.

The Pinnacle fuel dispensers continue the legendary standards for accuracy, longevity and superior performance that you have grown to expect from PEC.

## What Pinnacle will bring you.

### Intelligent Design

Elegant, simple lines bringing focus to a stunning new minimalist user interface.

### Customer Engagement

A customisable, user-friendly touch screen with flexibility to engage with the customer beyond what has been possible before.

### Improved Efficiency

From installation, to calibration, to daily use, the innovative design is more efficient in every way.

### Future Proofing

Integrated biofuel compatibility and provision for communication with app-based payment systems.

### Proven Hardware

Tatsuno hydraulics have been proven through decades of PEC products to bring you accuracy and reliability. Using quality components, and corrosion resistant metalwork, Pinnacle is built for longevity in local conditions.
